

**GlobalEnglish Professional** represents our premier learning and collaboration platform. Our comprehensive solution includes virtual classroom training and a personal online Learning Specialist to accelerate learning and productivity across the entire organization.

Interactive feedback programs complement a wide range of multimedia self-learning and productivity tools, while **GlobalEnglish Dashboard** provides administrators with real-time reporting and complete control over the entire organization's program.

**GlobalEnglish Learning Specialists** help accelerate Business English learning with regular check-in meetings to provide personalized support, motivation and accountability.

## How it works

### Business Content

Self-learning programs built around highly engaging multimedia content give learners the opportunity to develop relevant business skills and broaden their global knowledge as they improve their proficiency in Business English.

### Communication Skills

The latest engagement techniques deliver stimulating activities for learners at all levels as they practice and improve their listening, speaking, reading and writing skills.

### Productivity Tools

**GlobalEnglish Professional** goes beyond language learning with a wide range of easy-to-use tools, such as email templates and cultural briefings, to boost productivity in the workplace.

### On-Demand Learning

**Talk with Teacher** offers an interactive way to practice Business English with feedback from a teacher in a virtual classroom. **Writing Practice & Feedback** provides spelling corrections and style suggestions for written assignments.

### Advice & Encouragement

**GlobalEnglish Learning Specialists** provides the support of a dedicated personal advisor with in-depth knowledge of the **One** platform and expertise in the latest motivational techniques to keep every learner's progress on track.

### Program Management

**GlobalEnglish Dashboard** provides real-time reporting and program management with an intuitive interface, allowing administrators to track usage, analyze learner progress and optimize programs. Global programs can be rolled-out in days with automated on-boarding processes for new learners.

## Key benefits

"100% of staff reported that training was a worthwhile investment of their time."

"Leadership surveys gave an 80% rating to improved customer satisfaction."

"Talk with Teacher gave me incredible confidence in talking with others."

"Increased skills levels have been calculated to save employees 2.5 hours/week, over 51,000 hours/year!"
